

Arlette

A Latin and Thai category-expanding sans serif that is part experiment and part modern update.

DESIGNED BY

Pilar Cano
Ferran Milan

YEAR

2018

Pilar Cano and Ferran Milan's Arlette type family is an expansion of the sans serif genre. Every type family that TypeTogether releases endeavours to add something to the category in which the font resides, to inject a jolt of life into a category, or solve a significant problem in an appealing way. Arlette boldly attempts all three.

Pilar and Ferran based Arlette on the fast stroke of one letter from a Roger Excoffon family, but along the way they abandoned that starting point in favour of experimentation. Many sans serifs are like a svelte black dress: functional, beautiful, and the unfussy outfit for a nice evening get-together. The Arlette family isn't like this. It's a stunner — an incandescent reimagining of what defines a sans and how it can look.

Arlette explores the boundaries of the sans serif landscape and returns with forms developed from gestural vigour. Thinking of it as "painterly" may at first seem to fit, but it underestimates Arlette's ability to master an unseen world of countless emotions and physical applications: magazines, branding, editorial, teen and young adult works, book covers, and a host of products and packaging whose content

would be amplified with Arlette's voice. Not only does Arlette use its eight weights plus italics to speak in Latin-based scripts, it is also fluent in Thai and has six weights (hairline through bold) with which it meets that challenge, whether in text or display.

Arlette Thai's modern nature is seen in two features for the script. One is the decorative Thai characters that are based on original palm leaf manuscripts. Another is a version of the Latin numerals adapted to the height of the script due to their wide use in Thailand. Arlette Thai has been meticulously developed, including contextual kerning to avoid mark clashes.

Arlette's OpenType capabilities include mathematic and scientific figures, positional forms, pointers, arrows, and oldstyle, lining, and tabular lining numerals. In addition to all this, it's packed with swashes and swash ligatures in both scripts for enthusiastic typesetting. Because it pushes experimentation without compromising readability, both Arlette Thai and Latin are surprisingly legible in small sizes and arrestingly beautiful when their details can be seen.

THE DESIGNERS

---

**Pilar Cano** is a typeface designer from Barcelona, where she gained her first degree in Graphic Design. During this degree she studied for one semester at Lahti Polytechnic, Finland. In 2006 she graduated from the MA in Typeface Design at the University of Reading, UK.

Pilar worked at DaltonMaag for nearly three years before co-founding Letterjuice, a small type design studio and foundry dedicated to type design, lettering, visual communication, and education.

Born in Barcelona in 1979, **Ferran Milan** studied graphic design at Massana School of Art in the same city, then relocated to the UK to study typeface design. In 2010 he graduated from the MA in Typeface Design at the University of Reading, UK.

He has participated in exhibitions, given lectures, and led type design workshops. Ferran worked at Andreu Balius Studio in Barcelona and at Dalton Maag in London before co-founding the Letterjuice type foundry with Pilar Cano.

AWARDS

---

Print Typography & Lettering Awards 2016:

Typeface Design Best in Class (under name Aurélie)

#### FAMILY UPGRADES

---

Buy a single weight (or more) now and get reimbursed if you buy the entire font bundle at a later time. This is a great way to explore a new typeface without full commitment. To take advantage of the upgrade, please email [info@type-together.com](mailto:info@type-together.com).

#### CUSTOM WORK

---

We offer custom font solutions tailored to your needs. This includes developing new typefaces from scratch, modifying existing typefaces, extending language support, and creating logotypes. Please contact us for details at [info@type-together.com](mailto:info@type-together.com).

#### LICENSING

---

Our complete font catalogue, along with the presented type family here, are available for print, self-hosted web applications, and app embedding from TypeTogether's online store. For other types of licences and more information, please contact us at [info@type-together.com](mailto:info@type-together.com).

#### TESTING OUR FONTS

---

TypeTogether actively seeks ongoing dialogue with all type users and therefore offers free temporary licences to test any of our typefaces. The test fonts are fully functional and include the entire character set and OpenType features. To request test fonts, please contact us at [info@type-together.com](mailto:info@type-together.com).

#### EDUCATIONAL & CHARITY DISCOUNT

---

TypeTogether offers a 25% discount on all typeface purchases for students and those in education (schools, departments, etc.). This discount also extends to NGOs and charities in general. Please contact us for details at [info@type-together.com](mailto:info@type-together.com).

For further information, samples, and ordering, please visit [www.type-together.com](http://www.type-together.com).
